1	HL 4	2 supports for Photocell HL 2-31
1	CP 520	<b>Chronopinter 520</b>
10	HL 705-3	Paper rolls for CP 520

Basic ski installation allowing for the timekeeping of a ski race.

Thanks to the Chronopinter 520, the timekeeping is very easy.

Possibility to print the ranking of a run or two added runs on the timing sleeve of the Chronopinter 520.

If necessary the download of the CP520 memory in the PC allows for the printing of official results, thanks to our SKI or Msports software.

The voice communication is carried out on the same line as the timekeeping, thanks to our professional telephone set HL551. This product allows for a perfect communication quality and isolation which will help the timekeeper to be concentrated on his job. However this article is optional as the voice communication can also be carried out thanks to standard radio systems.
