Professional installation allowing for the timekeeping of a ski race in parallel (dual racing).

Thanks to the Chronoprinter 705 and to its double keyboard and double LCD (red course and blue course), the timekeeping is very easy.

The DUAL program integrated to the CP705 allows for the timing of qualification races (DUAL – SEQUENTIAL mode) and for the timing of the finals (DUAL – DIFFERENTIAL mode). The results can be printed directly on the timing sleeve of the device.

This configuration is ideal for those who wish to work without PC.

The voice communication is carried out on the same line as the timekeeping, thanks to our professional telephone set HL551. This product allows for a perfect communication quality and isolation which will help the timekeeper to be concentrated on his job.
