1	HL 4-3	2 supports for photocells HL 2-35
1	CP 520	Chronopinter 520 (with transport case)
20	HL 705-3	Paper rolls for Chronopinter 520
1	HL 520-10	Connection cable CP 520 -> HL 650

Basic installation allowing for the wireless timing of a ski race.

Thanks to the SPLITMASTER 650, you time a race without cables. The power of its transmission (2,5 W or 5 W) allows for the reception of timing data and voice communication over long distances in total security.

The SPLITMASTER 650 is the unique wireless timing device of the market allowing for the voice communication between start and finish

Due to its power, the SPLITMASTER 650 is subject to the hire of a licence that you can obtain from your competent local authorities.

Mobility, reliability of transmission and wireless voice communication are the main advantages of this configuration.
