4	HL 5R	Tripod for photocell with ball-joint ¼ (Height 47cm -> 80cm)
1	MSPORTS	Multi-Sports software (skiing, MTB, etc...)

Basic installation allowing for the timekeeping and for the printing of official results an INLINE downhill race.

Thanks to the SPLITMASTER 650, you time a race without cables. The power of its transmission (2,5 W or 5 W) allows for the reception of timing impulses and voice communication over long distances in total security. Due to its power, the SPLITMASTER 650 is subject to the hire of a telecom licence that you can obtain from your competent local authorities.

The SPLITMASTER 650 is the unique wireless timing device of the market allowing for the voice communication between start and finish.

The Receiver transmits the timing data directly to the PC. Our MSPORTS software allows for the complete management of any kind of race. Entry of competitors, timing, official results, etc..

Mobility, reliability of transmission and wireless voice communication are the main advantages of this configuration.
