DUAL SKI INSTALLATION WITH PTB 605, PARALLEL SOFTWARE AND DISPLAYS

Quantity	Reference	Description
1	PTB 605	Precision Time Base 605 WITH printer and transport case
1	HL 605-1	External power supply for PTB605 (110-200 V / 12 VDC)
20	HL 501-3	Paper rolls for PTB Printer
1	HL 605-6	Connection cable 10m PTB605 -> Display HL 960 / 965 / 990
1	HL 551	Professional Telephone set (2 x headsets. 2 adapters)
2	HL 2-35	Photocell with transmitter and receiver separated (E+R) cable and transport case (distance 80m)
2	HL 4-3	2 supports for Photocell HL 2-35
* 2	HL 960	6-digit display
1	HL 960-12	External power supply for HL 960
2	HL 960-8	External power supply cable
1	HL 960-13	Interconnection cable between displays (1m)
1	PARALLEL	Professional software for parallel races

- * The HL 960 can be replaced by our HL 965 / 6-digit display / 25 cm (dim. 160x35x15 cm) or HL 990 / 9-digit display 15 cm (dim. 150x23x12cm)
Optionally, you can add Internal accumulator in our HL 960 / 965 or 965 (in this case, you don't need to order external power supply (HL 960-12) and connection cable (HL 960-8))

Professional installation allowing for the timekeeping and for the printing of official results of a ski race in parallel (dual racing).

The principle of linking a professional time base to a PC offers a professional kit at a very competitive price. Thanks to our PTB605 which transmits ON LINE the information to the PC and to our SKI software, you manage easily all the timing operations directly on the PC. Thanks to its bidirectional feature (unique on the market), the PTB605 prints the calculated times, the names of competitors, the rankings, the DNFs, the DSQs, etc...

Our PARALLEL software allows for the complete management of any dual race. Entries of competitors, timing of qualification race on one or two slopes, timing of the finals (KO system), official results, etc..

This configuration requires the use of a computer and is then subject to cold temperature constraints. For this reason we advice this configuration only to those who have the chance to work inside a timing hut. For those who do not have this chance, the solution will be the replacement of the PTB605 with our Chronoprinter 705.

The voice communication is carried out on the same line as the timekeeping, thanks to our professional telephone set HL551. This product allows for a perfect communication quality and isolation which will help the timekeeper to be concentrated on his job.
