POCKET PRO PILOT HL 400-P

POCKET PRO PILOT HL 400-P

TAG Heuer Professional Timing launches the dedicated Pilot App. on its brand new and unrivalled **Pocket Pro** professional digital stopwatch.

The Pocket Pro electronic stopwatch is the latest in TAG Heuer's Professional Timing development regime. In addition to the three exclusive timing modes **dedicated to General Aviation and Pleasure pilots**.

Additional to the two exclusive timing modes dedicated to Pilot (Record Flight time and Fuel tank operating time), this 1/100th second handheld timepiece also encompasses standard stopwatch modes, including Split / Lap time measurement, countdown, and time of day memory

Together with its integrated USB connector and free application **Pocket Pro Manager** and supported by Pocket-Pro's internal memory of 800 measurements, downloading, analysis, printing and archiving of results are extremely simple and can be viewed or printed instantly from your laptop or PC.

The aluminum body and its PVD surface treatment provides a solid and robust device to cater for demanding conditions

Timing Mode

- Time Of Day (Time)
- Count Down
- Split / LAP
- Flight Time
- Fuel Tank Operating Time
